HOW TO Get Involved

Each Honors student is required to participate in **4.5 hours** of civic engagement per academic year.

The only events that count toward this requirement are events organized by:

The Honors College

The Honors College Club

Events recognized by a UCC Area 5 course

Events that students register for through Pioneer Life

The Honors College will accept the number of hours for each event posted in Pioneer Life or by Student Activities. If you acquire civic engagement hours from an event sponsored by a private organization, please fill out a Civic Engagement Report Form and email it to honors@wpunj.edu.

To find out more about events, performances, organizations, or clubs on campus, please visit Pioneer Life.

Download the Corq app to search for social, cultural, educational and/or civic engagement events!

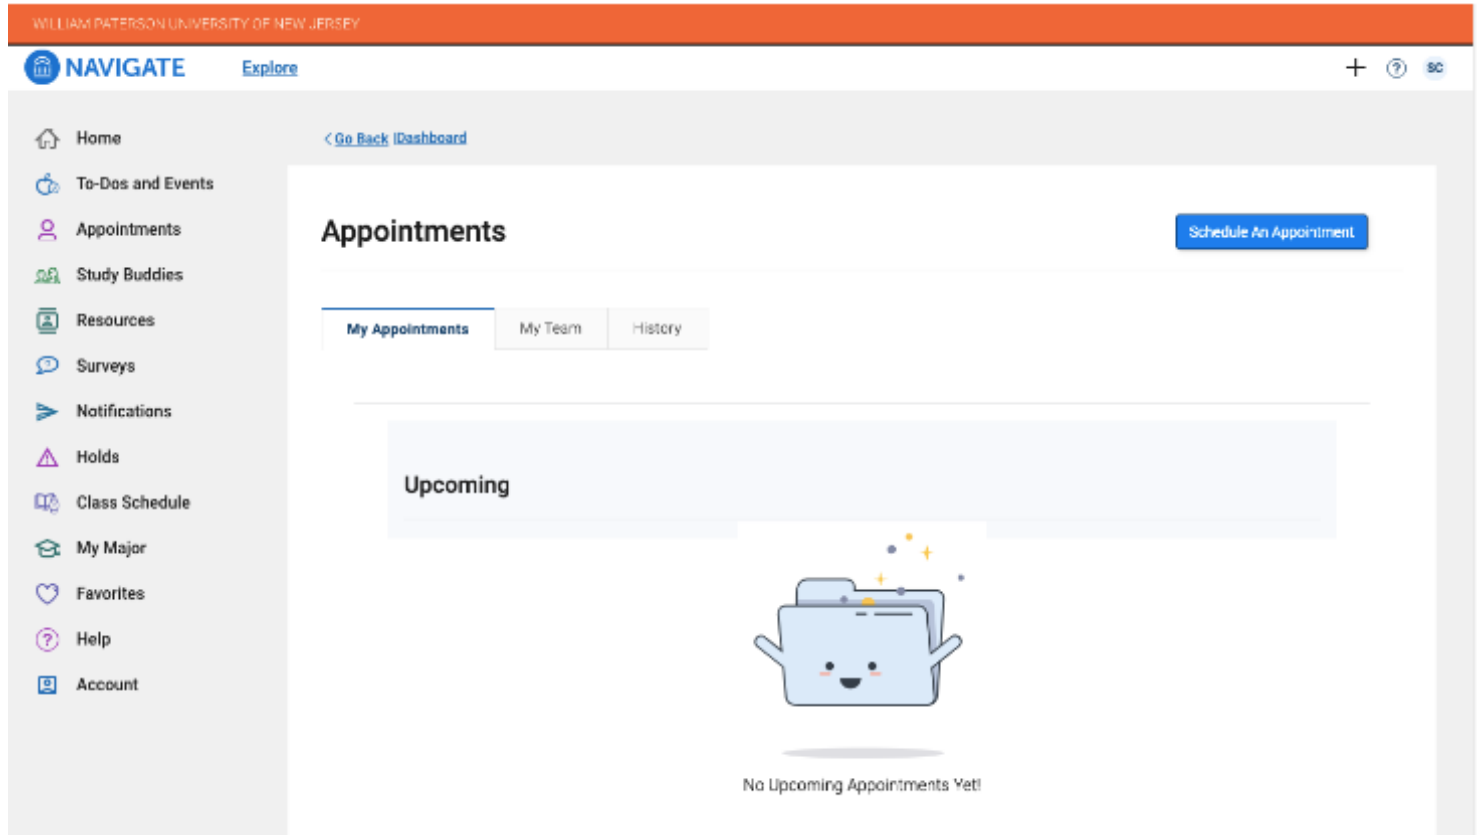

WHY SHOULD I JOIN A CLUB IN COLLEGE?

1. **Network** – the friends and acquaintances you meet in college are more than social; they may also be the people who help you find jobs. And, being a club member is...
2. **Another line on your resume.** Employers like to hire people who get involved. Clubs are one way of showing that you are an active person. But, even if the club doesn't help your job search it might...
3. **Reduce your stress** by giving you something fun to do – or at least something that isn't solely focused on course work. Also, talking with people, and interacting with them at events will help you...

HOW TO **5AMP** Self Care

Take Care of your Body

Maintaining your physical health is a crucial factor in keeping your mind healthy. Eating a well-balanced and nutritious diet can boost your immune system and lower the effects of stress on the body. Incorporating exercise with a healthy diet will also help improve your mood by producing endorphins.

Take a Break from News and Social Media

It's important to know when to unplug before it starts affecting your mental health. You can stay informed by checking in from time to time, but don't overdo it by continuously refreshing social media throughout the day. This can increase feelings of fear and anxiety.

Make Yourself a Priority

Remember to put yourself first when you feel overwhelmed or stressed. Always make sure to prioritize your sleep, diet, and mental health. A healthy mind will help you succeed!

Go Outdoors

Not getting enough sunlight can result in a drop in serotonin levels, which directly affects your mood. Low levels of serotonin can also lead to symptoms of depression. Going outdoors for at least an hour every day will allow you to get fresh air and improve your mental well-being

Listen to Music

One of the most convenient ways to relieve stress is to listen to music. Music has many therapeutic benefits; it helps lower anxiety and depression levels, ease muscle tension, and enhances your mood. Start your morning by listening to a playlist with your favorite songs to help you de-stress.

Set Goals

Setting goals helps define priorities and improves self-confidence and motivation. Make sure to write down the goals you want to set and how you want to accomplish them. Not only will this help you stay organized, but it will also allow you to keep track of your progress towards achieving the goal.

HOW TO
